

## Over 245 New Mining Sites in Kachin Since the Coup

ISP Mapping Number 93

ISP Mapping

Following the 2021 coup, the number of rare earth mining sites in Kachin State rose from 126 to over 371—an increase of 245 sites, nearly doubling the total since the pre-coup period.

Note: Data as of December 2024 are based on ISP-Myanmar's research and may vary from other sources due to differences in methodology and data availability.
